

Q4.4 Population Health Management Proposal - Sudbury Surgery

High Med Ltd + Dr Singh Hammond Road consortium | Lot 4 Sudbury Surgery (E84685) | Atamis C444743

Owner: Dr Muhammad Adem. Framework: Core20PLUS5. Tools: clinical system, eFI, WSIC / NWL primary care dashboards. Delivered with Brent Central K&W; PCN and system partners.

Method: segment, stratify, intervene, evaluate

Step	Action
Segment	Identify Core20 (most deprived 20%), PLUS inclusion-health groups, and the 5 clinical priorities
Stratify	Risk-stratify with eFI and dashboards; validate registers
Intervene	Targeted, culturally tailored interventions with named owners
Evaluate	Baseline -> KPI trajectory; equity-gap monitoring; governance review

Priority programmes (dataset -> intervention -> owner -> target)

Priority	Intervention	Owner	Target
Diabetes (prev. 8.58%)	SMRs, bilingual education, screening recall	Dr Singh / pharmacist	3 targets at/above benchmark
Hypertension/CVD	Case-finding, BP@home, optimisation	Dr Singh	BP controlled improving
SMI	Annual physical health checks	Nursing team	>=90%
Cancer	Screening uptake in underserved groups	Dr Adem	At/above benchmark
Respiratory/maternity	Greener inhalers; maternity continuity links	Dr Singh	Improving

Governance and equity

Quarterly PHM review with data-quality assurance and equity monitoring; annual Sudbury inequalities outcomes report to PPG and ICB.
